

Rally in Atlantic City **JUNE 21**

GET READY! On June 21, thousands of union members, community leaders and concerned citizens will rally to support Atlantic City casino workers who are fighting for fair contracts.

Atlantic City casino dealers, slot technicians and other gaming employees are dedicated to quality service. We deal fairly and professionally with all our customers.

But the casinos are not dealing fairly with us. Our employers are making huge profits, but we've suffered a steady erosion in our wages, health benefits and working conditions. During the past year, we voted by huge majorities to form our own unions so we can bargain over these issues.

But the casinos are ignoring our majority and trampling our democratic rights. They either won't come to the table or won't do any real bargaining when they get there. Which is why more than a year after voting YES for our union, we still don't have a contract.

IT'S TIME TO CHANGE THE GAME. Join us June 21—stand up for fairness for ALL Atlantic City casino workers.
