

# LEGISLATORS SIGN-ON IN SUPPORT OF ATLANTIC CITY DEALERS

we, the undersigned, support the Atlantic City casino dealers' efforts to organize their union with the United Auto Workers (UAW).

While we recognize that the casino gaming industry is a vital part of Atlantic City, the industry should recognize that its employees are at the core of the industry's success.

With Union representation, Atlantic City casino dealers, like many other union members in the gaming industry, will have a powerful voice to negotiate for better salaries, fair benefits, and a secure retirement. This will benefit the dealers, their families, our communities and the casinos.

In a highly unionized industry, casino management should respect its employees' opinions and democratic right to organize a union free from employer interference and abuse of power.

This is what our community believes in and it is what we expect from responsible businesses. We will be paying attention to how employees are treated throughout this process.
