BOARD OF EDUCATION ELECTION RESULTS EDITION

Voters across the State went to the polls yesterday to select representatives to their local school boards. School Board members not only play an important role in the education of our children, but also, act on issues related to employee contracts and school construction. These issues in particular are important to union members in New Jersey represented by the New Jersey State AFL-CIO.

The New Jersey State AFL-CIO is proud of all of the rank-and-file union members that sought election to give New Jersey's working families a stronger voice on these important matters.

Fifteen union members were elected yesterday bringing the total number of rank-and-file union members elected to public office since 1997 to 327. Following is a list of the successful candidates:
