

When You Buy Verizon Wireless Products, You Destroy Middle-Class Jobs

Top Verizon and Verizon Wireless executives took home \$258 million over the last 4 years. While they rake in the dough, they have already cut health care coverage for Verizon Wireless workers.

This company is making record profits. Yet while the top brass grab more and more for themselves, Verizon Wireless is demanding that its workers add to those profits from their own pockets. Support Verizon Wireless workers in their fight for a fair contract: Don't Buy Verizon Wireless products. Instead of Verizon Wireless, please consider buying AT&T, where 40,000 wireless workers are union and proud.

TAKE ACTION:

**Don't Buy Verizon Wireless Products,
Consider Buying AT&T, the Union carrier
that respects wireless workers' rights.**
